WELCOME TO STUDIO QUEEN 318

STUDIO QUEEN 318
IS STELLA PETROU,
DESIGNER AND ARTIST.

Gathering the knowledge of artisan masters, Studio Queen offers an extraordinary collection of handcrafted pieces, guaranteed to stand the test of time. Whether exclusive one-of-a-kind leather handbags that deliver timeless style to every wardrobe, or fine art prints that capture a piece of the artists soul, Studio Queen is a labour of love made from the very heart of its designer. Each piece has been carefully and uniquely handcrafted using materials found all over the world, exclusively created for the woman with sophistication and style.

An inspired space where ideas, experience & classic style come together.

Studio Queen 318 bags are unique, stylish and one of a kind. Created from leather that has been sourced, collected and archived over the years, each bag is made using traditional techniques, vintage materials, and preloved tools. Over time, it weathers, fades, softens and takes shape of its owner.

Our bags are not just bags, they are ornamental, trendless, and an artistic statement that precedes any style of fashion. With each bag telling a story of its own, you'll be taken on a journey together.
